

Trauma Informed End of Life Care

August 1 – Bereavement Professional Chat Box Transcript

Deborah Pausig, LMFT, CT: Thank you, this is great information. I would like to share it as an adjunct to IDT with our Nurses.

Grace Anderson: Thank you! Our hospital system is doing a lot of work around trauma informed care but not specifically with our hospice.

Barbara Graisy-Adams: So exciting to see trauma informed care moving into the Hospice arena. I'm Bereavement Counselor utilizing EMDR in my work. I have been a Hospice MSW and utilized identifying trauma throughout. I would like to be involved further.

Joel Peterson: Nancy Webb's Play Therapy with Children and Adolescents in Crisis is a very well written and comprehensive book which provides insight on using expressive engagements with youth and has a section on trauma and bereavement. Thank you for the enlightening presentation.

Diane Snyder Cowan: Great! Please be sure to stay involved.
